

Pumpkin Spice, Bitches

Graph Crochet Pattern

by

Psychedelic Doilies

Below you will find the graph in full. For your convenience I have also broken it down into nine parts. You may choose to print these out and tape them together so that you have a larger graph to work with.

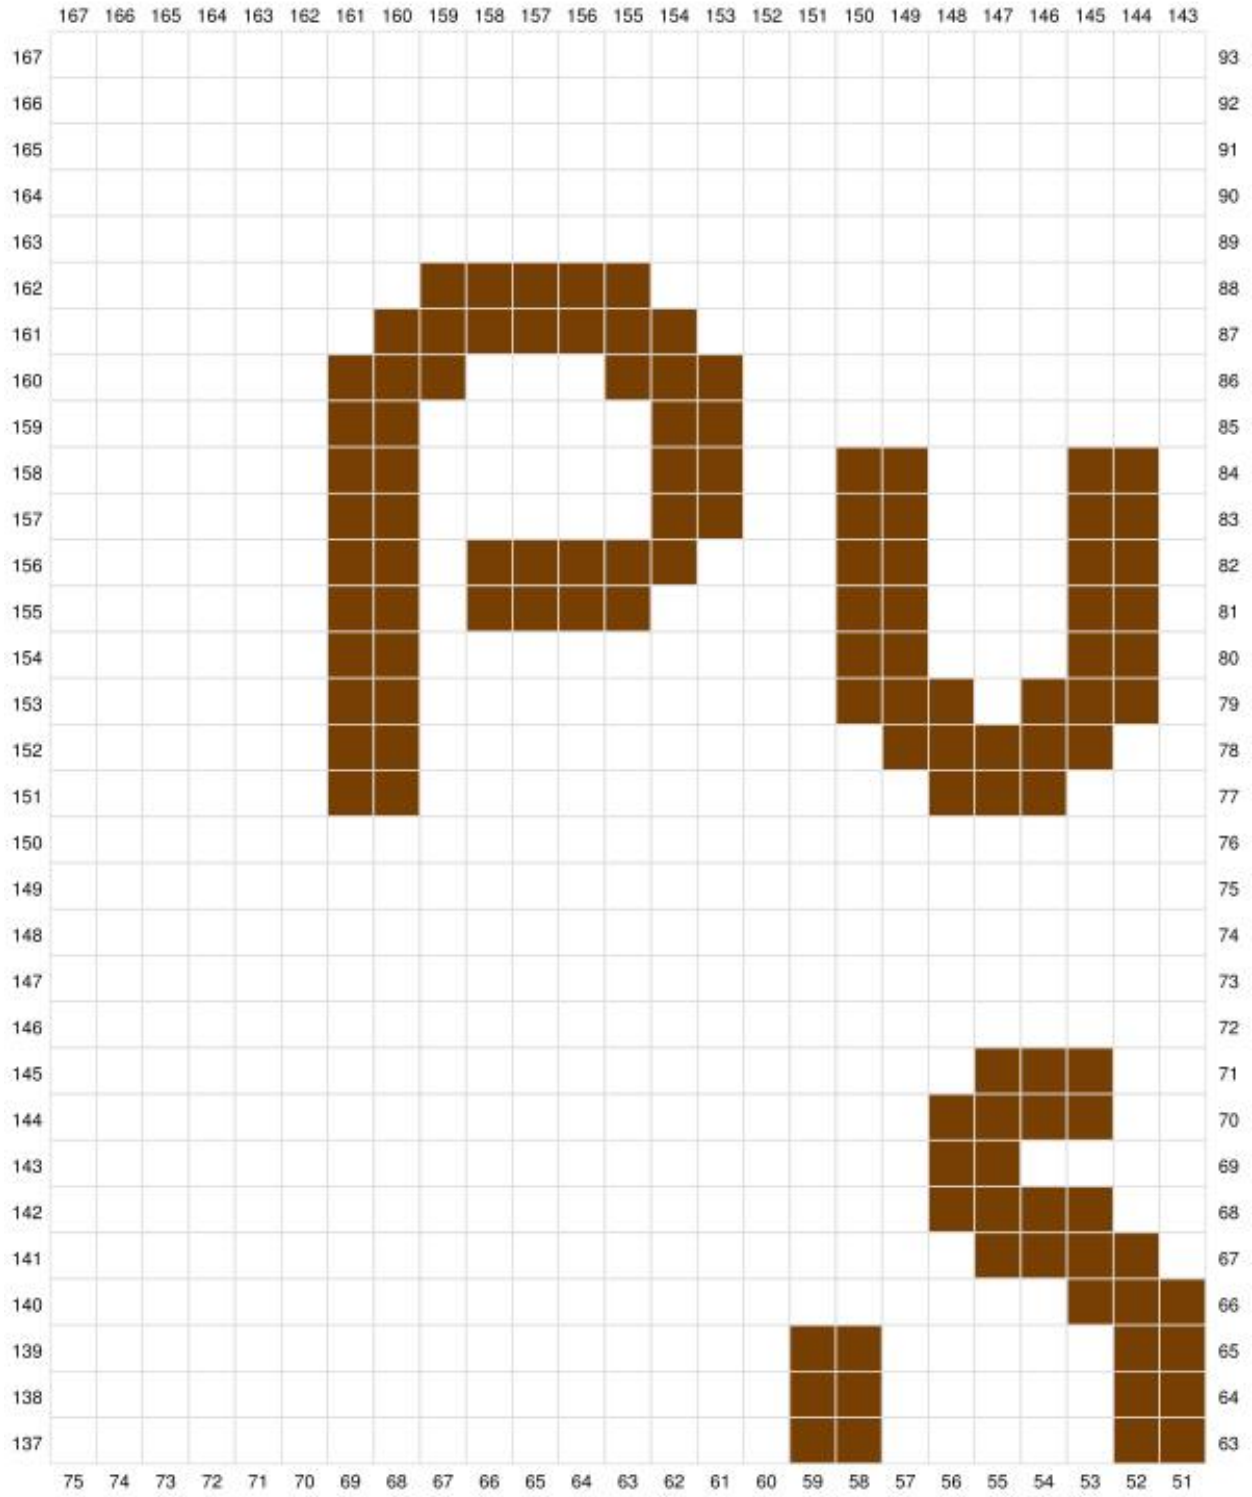

No color legend is provided as this graph is quite simple with only three colors.

I have provided a full color graph as a suggestion but have also provided a graph with a white background to save printer ink for those who prefer a physical graph to work with.
